

Adenus Technologies

Products

Our warehouse has a comprehensive product list for every phase of your project, from STEP tank components to dispersal systems. Our UL-Listed HAWK Panel Shop is the industry's Gold Standard for system controls. HAWK Monitoring System SCADA offers an unrivaled platform for site management.

Training

Adenus Technologies is a technical leader and innovator in the decentralized wastewater space. Customers can expect training on best use practices for our product lines and we offer comprehensive training for our HAWKMS subscribers.

Support

We pride ourselves on our unrivaled customer and product support. Our team of engineers and product specialists are available to answer your questions and help solve your technical challenges.
